

## How do I Create a Mailing List?

Since Calmail, the Central Campus email support team, has brought up Mailman mailing lists services with more fault tolerance implementations, ECSM will gradually migrate Haas Mailman mailing lists over to central campus.

Starting January 1, 2008, ECSM will no longer support the self-service tool to create new Haas Mailman mailing lists.

Please see the options below for creating new mailing lists.

### **Personal/Club Mailing Lists**

If you need to create a Personal mailing list, or a list for a club, etc... you can do this through Calmail. Please see the document [How do I Create a Calmail Account?](#) and the document [How do I Create a Calmail Mailing List](#) for instructions.

### **Departmental Mailing Lists**

If you need a Departmental mailing list, please send your request to Helpdesk at [helpdesk@haas.berkeley.edu](mailto:helpdesk@haas.berkeley.edu). Calmail will not support Haas official mailing lists until the end of March of 2008, so Haas will continue to support these types of lists meanwhile.
